

HUNTER'S AMBULANCE

18th Annual Golf Classic

*In Memory of
William Lawton & Carol Gillooly*

Farms Country Club
Monday, September 10, 2007

Good luck golfers and Thank You for your support

Why We Are Here . . .

Many may not recall what they were doing on the night of September 2, 1989. Some, however, remember like it was yesterday. Jose Aguilar and Bill Lawton were training a new employee, Carol Gillooly, who was completing her last orientation shift prior to being released for regular duty. The call came in for the return of an elderly patient to his convalescent home in Colchester. This was not an emergency transport, but carried with it every element of the importance of patient care and responsibility. Bill, Carol, and Jose greeted the patient, moved him to and secured him in the ambulance and the transport began.

In the darkness of this cool September night Bill Lawton was driving the ambulance with all necessary due regard, protecting the four lives he had on board. Just one week earlier in fact, Bill had completed a Defensive Driving Program, piloted by Hunter's Ambulance for adoption by the State. From Middletown to Portland and East Hampton through the twists and turns of Route 16, they innocently proceeded to their destination as they and many crews had done so many times before. Ahead of them and out of sight, a drunken man recklessly rocketed towards them back and forth across the centerline. His pickup truck suddenly came into view around a corner in a blur of white lights.

The peacefulness of the crisp country air was shattered. The pickup truck crossed into the path of the ambulance from around a bend and hit the ambulance head-on at a high rate of speed. The two vehicles became one, exploding into flames. The flames crept ominously closer and closer into the twisted mixture of metal that was once an ambulance. As Bill fought for his life pinned in the cab of the ambulance, rescuers responded by air and ground, and came to the aid of their brothers and sister. They worked with strength and intensity almost beyond their human abilities. These life saving efforts were the very same type of skills that Jose, Bill and Carol had used to help and save the lives of many people before this night. The heart-wrenching, overwhelming outcome was the loss of life of the patient and the caregivers Bill Lawton, EMT, and Carol Gillooly, EMT. Jose barely survived and was disabled after a lengthy rehabilitation.

Words, both spoken and written, cannot do justice to the senselessness of the loss of these lives. Lives that were ripped away from the carelessness of one drunk driver. Lives that had committed themselves to helping others in need. This tournament mourns the loss of Carol and Bill. It is in their memory, and in the honor of their life saving spirit of concern for others that we are here.

Proceeds from this tournament are used to provide education programs, training programs and financial aid to individuals pursuing or furthering their education or training in the fields of emergency medical services, healthcare and related medical services so that others may contribute to making a real difference in their communities and in people's lives as Carol and Bill did in ours.

Thank You for your participation in this meaningful and worthwhile event.

Linde Gas Therapeutics

LifeGas

Industrial gases are used in factories. Our gases are used in people.

In emergency care, medical gases help to buy time for life-saving intervention during transport to an inpatient environment. At LifeGas, we understand the urgency of your work. And we respond. We produce the highest quality medical gases, devices and gas-enabled therapies.

We give our all, so you can give your patients the greatest gift of all. LifeGas.

LEADING IN THE INDUSTRY SINCE 1969

Be Multi-Agency Prepared

You never know what's waiting at the other end of a 9-1-1 call. Choosing Priority Dispatch™ products, training, and services means you'll be prepared to make critical decisions quickly and correctly, even when multiple agencies are involved. ProQA® dispatch software moves seamlessly between police, fire, and medical, and our training and certification courses are the most rigorous in the field. When this training is combined with use of our protocol cardsets or software, even your newest dispatcher will be ready to handle calls with confidence and expertise—no matter what's waiting at the other end of the call.
