Our Purpose

Spirit of Giving, Inc. is a non-stock, not-for-profit corporation established to help individuals and organizations within the community who are in need of a **“Helping Hand”** through two kinds of support:

1 Help for those facing hardship

Financial aid or procurement of items to assist in satisfying special needs arising from unexpected loss or disability of a family member, or a loss of shelter or essential food, clothing or possessions through tragic circumstances such as a fire; or an individual or organization which may have limited or no access to special needs items such as assistive devices or educational or development equipment that is necessary and helpful to promote health and safety and assist with improvement of quality of life.

2 Education awards

Financial awards for educational related expenses to individuals pursuing or furthering their education or training in the fields of emergency medical services, healthcare, and related fields in their communities, including but not limited to physicians, physician's assistants, nurses, certified nursing assistants, and police and fire personnel.

“ Every gift, hour and dollar goes to neighbors who need a helping hand — and to the people training to care for our communities.
